EXPERIENCE & PROJECTS

StudentConnect-solo 2025 – Present

*Backend **REST API** (Node.js, Express, MongoDB)*

- Designed and implemented a **REST API** using **Node.js** and **Express** with a layered architecture (routes, controllers, models).
- Added schema and ID validation with consistent HTTP status codes (400/404/422/500) and structured error responses.
- Tested and documented API endpoints using **Postman** to verify correctness and edge cases.
- **Repo:** github.com/LucaT445/StudentConnect-solo

StudentConnect Jan 2024 – May 2024

Backend Lead Team Project

- Led backend development for a team project, designing and implementing REST API endpoints using **Node.js** and **Express**.
- Collaborated with frontend teammates to align API contracts and improve request handling reliability.

NeuroLearn Nov 2024 – Present

*Interactive Web App **Python**, **Dash**, **Plotly***

- Built an interactive **3D web app** for brain anatomy with region metadata and **AI-assisted Q&A**.
- Implemented **per-IP rate limiting**, input clamping, and environment-based configuration for safe public use.
- Deployed publicly on **Hugging Face Spaces** with daily usage caps and environment-managed secrets.
- **Repo:** github.com/LucaT445/NeuroLearn **Demo:** Live App

Good Eggs May 2025 – Present

Warehouse Dispatcher

- Worked full-time in a fast-paced warehouse and dispatch environment, maintaining accuracy and throughput under tight deadlines.
- Coordinated with team members to ensure timely order fulfillment and smooth daily operations.

EDUCATION

San Francisco State University San Francisco, CA

B.S. in Computer Science Dec 2024

SKILLS

Languages: Python, JavaScript, Java, SQL
Backend: Node.js, Express, REST APIs
Frontend: HTML/CSS, React
Databases: MongoDB, PostgreSQL, MySQL
Tools: Git/GitHub, Docker, Postman, pytest, PyTorch, GitHub Actions, Linux
